

FARID EL NASIRE

EXPERIENCE

Mymee Inc

Helping fix chronic autoimmune diseases with a great team, one line of code at a time, using Python, Django, AWS, React Native and Ember.

Nov '16 - Present

Rockerbox

Worked on numerous features of the SaaS product, including an AI AdWords broker and plugins for platforms like Slack, Shopify, and Wordpress.

Nov '15 - Nov '16

BrandBox

Developed a drag-and-drop WYSIWYG-editor for online campaigns, and helped lay the first foundation for an improved MEAN stack architecture.

Apr '15 - Nov '15

Ganda & Label A

Worked on projects for numerous Fortune 500 companies. Mostly as a full stack developer, sometimes also as project manager.

Jan '14 - Apr '15

SIDE PROJECTS

Tamazight Translate (work in progress)

A machine learning driven translate service for the Tamazight language.

The end goal is to hopefully have Google include the language in Translate.

Israel Under Attack

A realtime map of rockets being fired into Israel from Gaza. The purpose was to inform civilians who are hiding in their saferooms, to help them psychologically.

Facebook Music

A social music player built into a Facebook canvas, a couple months before Facebook and Spotify announced a partnership.
